Dear all,

HKAMP Medal Scheme for Certification Exam Candidates

In order to provide incentive for candidates to achieve excellence in exams, and recognition for outstanding performance, a new 'HKAMP Medal Scheme' is established to reward 'high performers' as they go through the examinations towards professional certification.

The 'Medal' will be awarded to candidates who achieved an average score of $\geq 80\%$, averaged over the 3 Certification exams (i.e., Part I, II and PA, with equal weighting for each exam). In each of these exams, the candidate should have obtained a 'pass' without any retake.

The new scheme will be effective starting from the PA exam in Sept 2025.

Candidates should apply for the 'Medal' if they have achieved the required average score over the 3 exams. The application can be made to the Examination Committee Secretary after receiving the PA exam result.

Thank you very much.

Yours sincerely,

Francis Lee, PhD
President of HKAMP
