

## Announcement of Tomotherapy Symposium

A new piece of advanced state-of-the-art radiotherapy equipment has been installed at QEH and is now being used to treat cancer patients. It is the latest model of Tomotherapy which is called the TomoHD. We are honoured to be able to invite 2 renowned speakers from the City of Hope National Medical Center in the United States to present their clinical experience on Tomotherapy. The details of the Symposium are highlighted below:

Date: **1 September 2011** (Thursday)

Venue: Lecture Theatre 12/F Block R QEH
